

# **Proof of Performance in the Field**

## EcoPower HD 15W-40 Field Proven

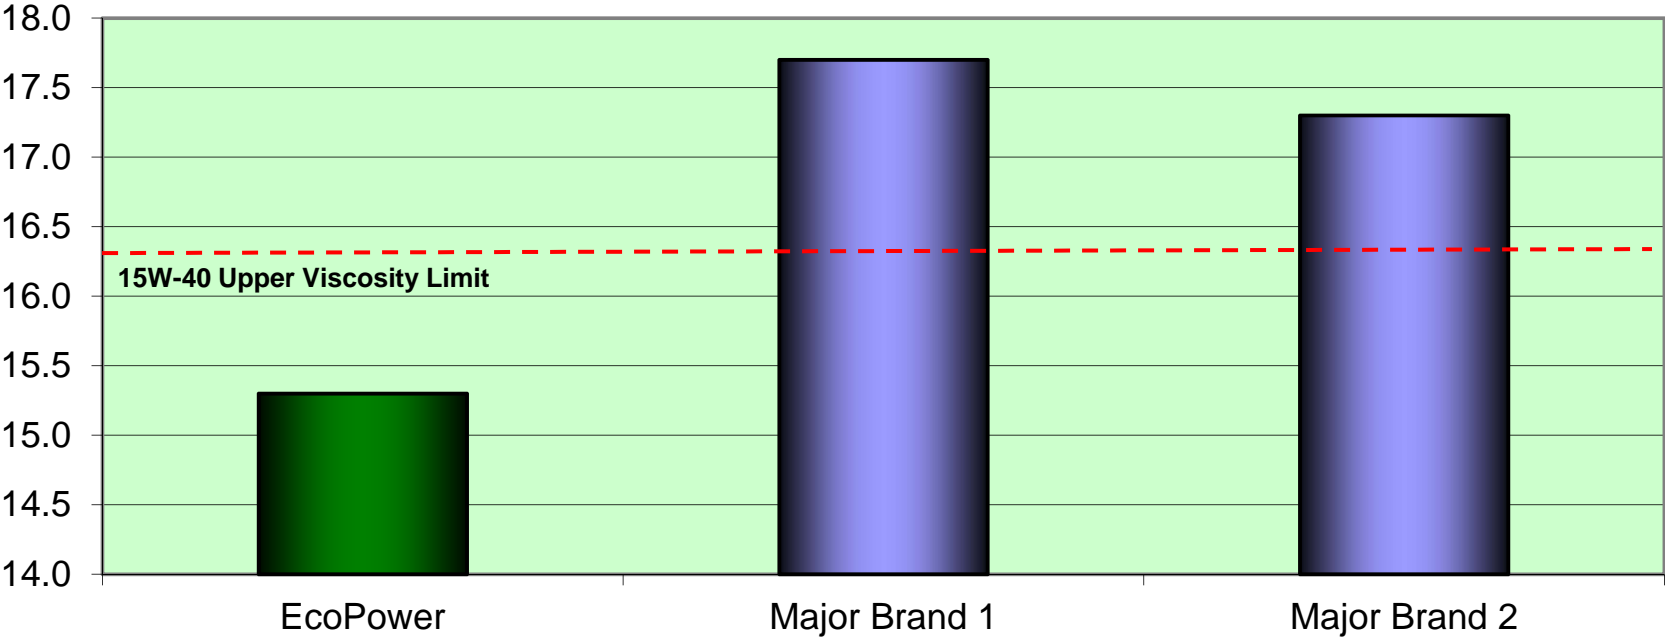

- 2007 Cummins ISX 450 hp EGR engines were used to demonstrate the excellent performance of **EcoPower HD 15W-40**
- Put to the test in fully loaded, long haul service - **EcoPower HD 15W-40** performed equal to or better than leading Super High Performance Diesel engine oils under extended drain conditions
- After 500,000 miles with drain intervals at over 40,000 miles...

EcoPower HD 15W-40 delivered engine protection and cleanliness that was second to none!

# Used Oil Analysis: Viscosity (cSt)

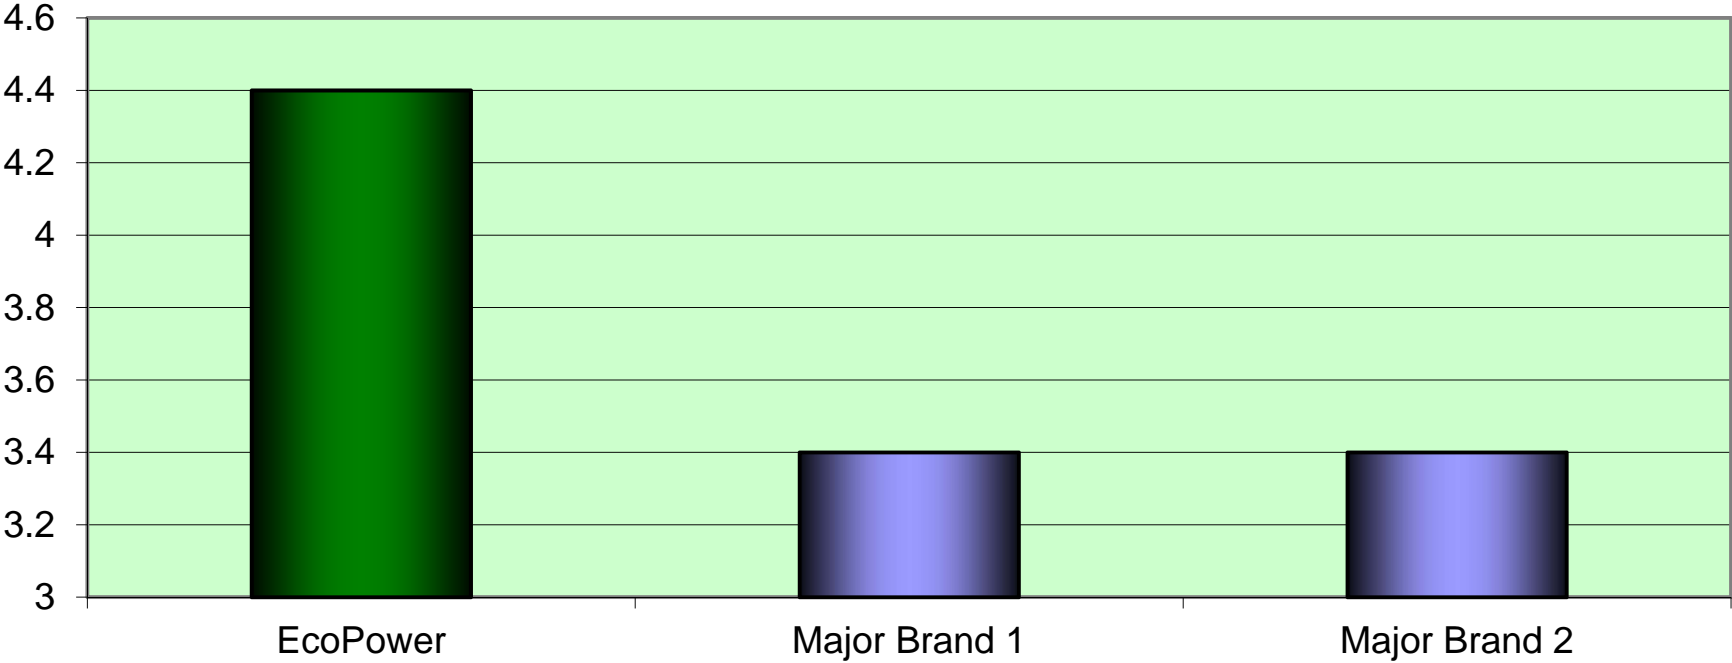

**EcoPower maintains 15W-40 viscosity grade characteristics (12.5 to 16.3 cSt) even after 40,000+ miles of service**

Results above are based on median drain intervals of 40-42 thousand miles

# Used Oil Analysis: Total Base Number

**EcoPower possesses acid neutralization capability even after 40,000+ miles of service**

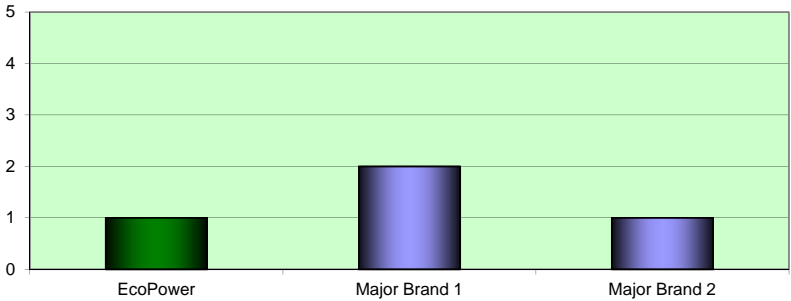

Results above are based on median drain intervals of 40-42 thousand miles

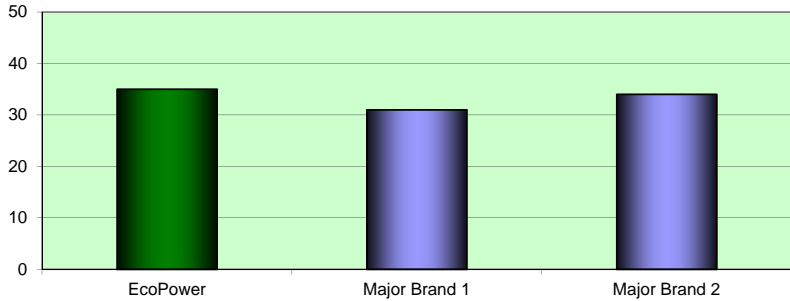

# Used Oil Analysis: Wear Metals

## EcoPower protects hard parts in extended drain applications

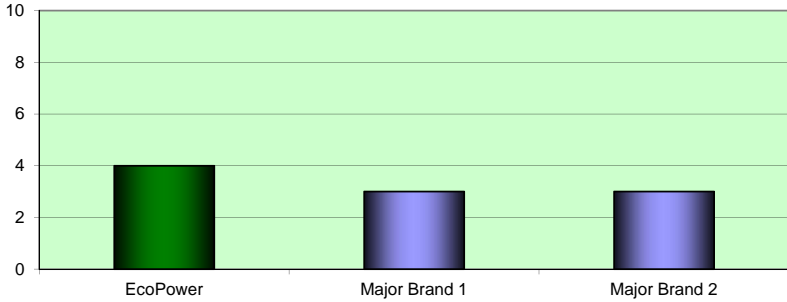

Copper (ppm per 10,000 miles)

Iron (ppm per 10,000 miles)

Lead (ppm per 10,000 miles)

Results above are based on median drain intervals of 40-42 thousand miles
